

PRESENTAZIONE PERFORMANCE PASSATE

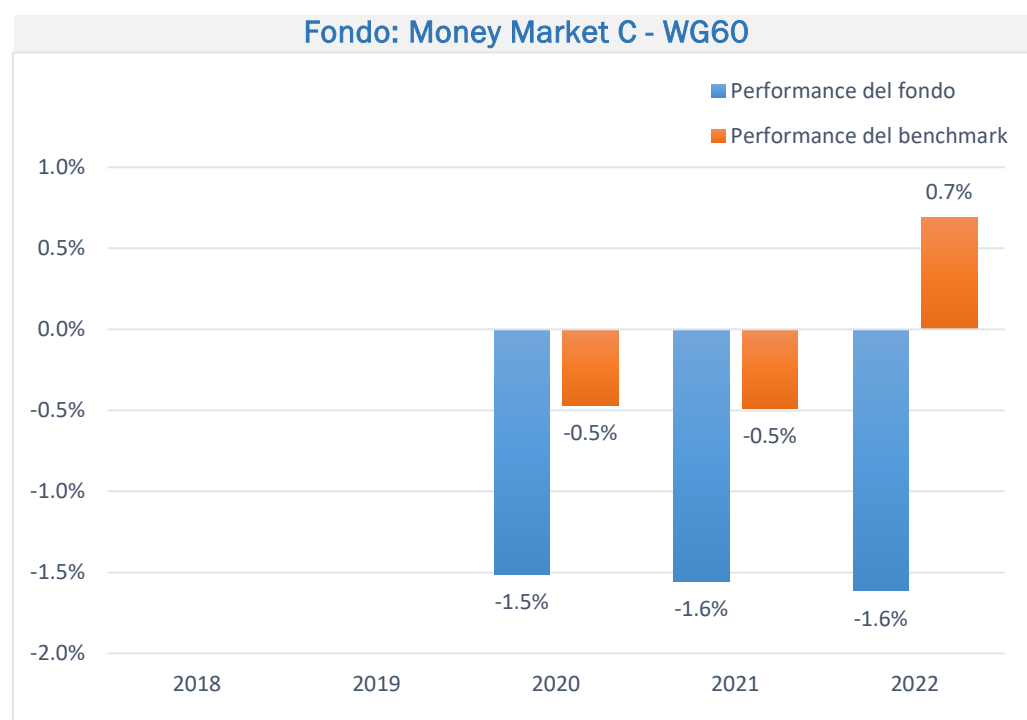

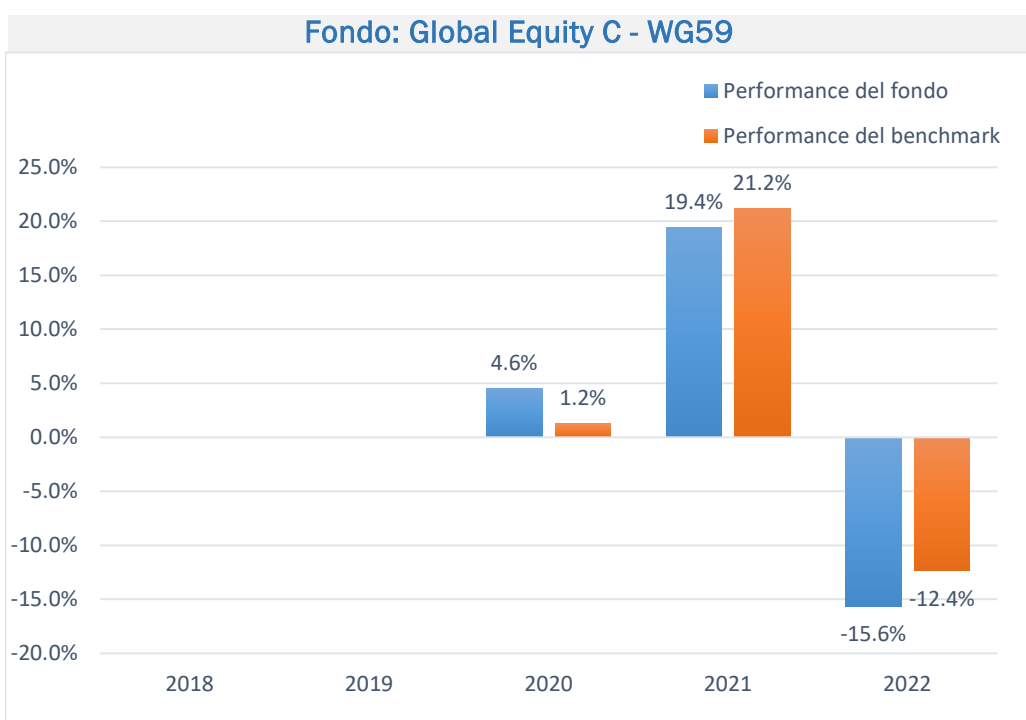

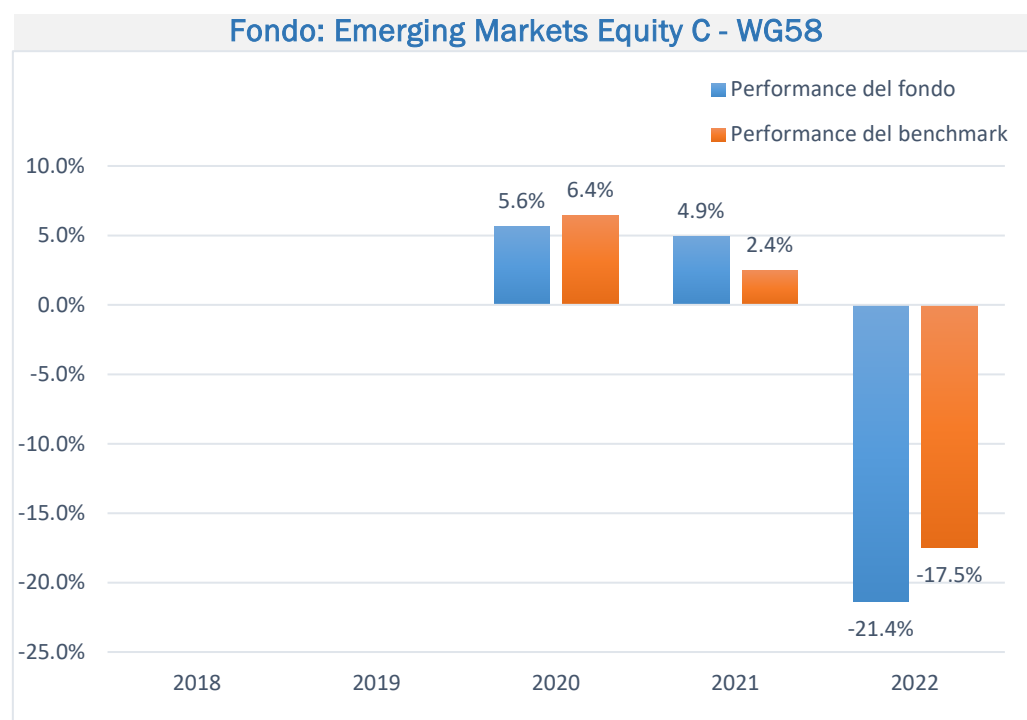

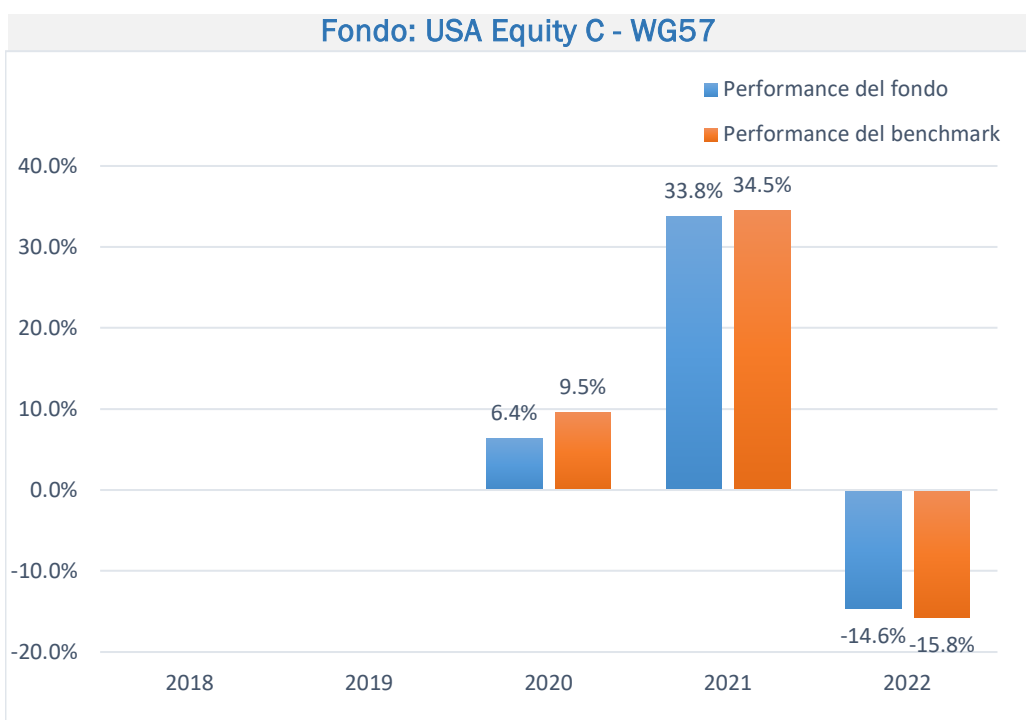

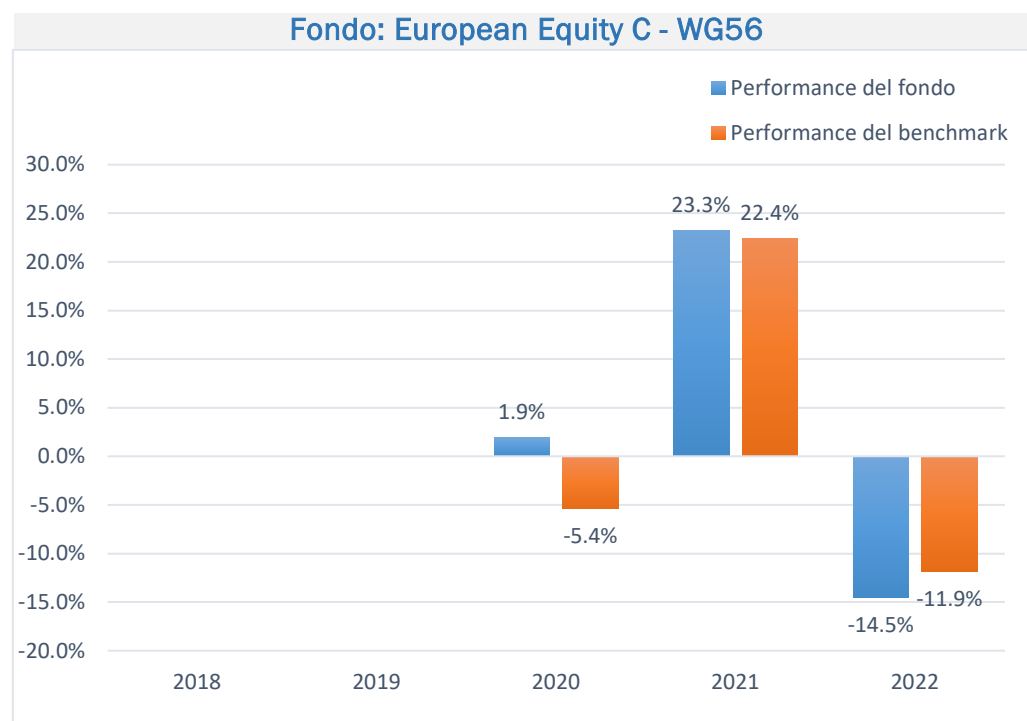

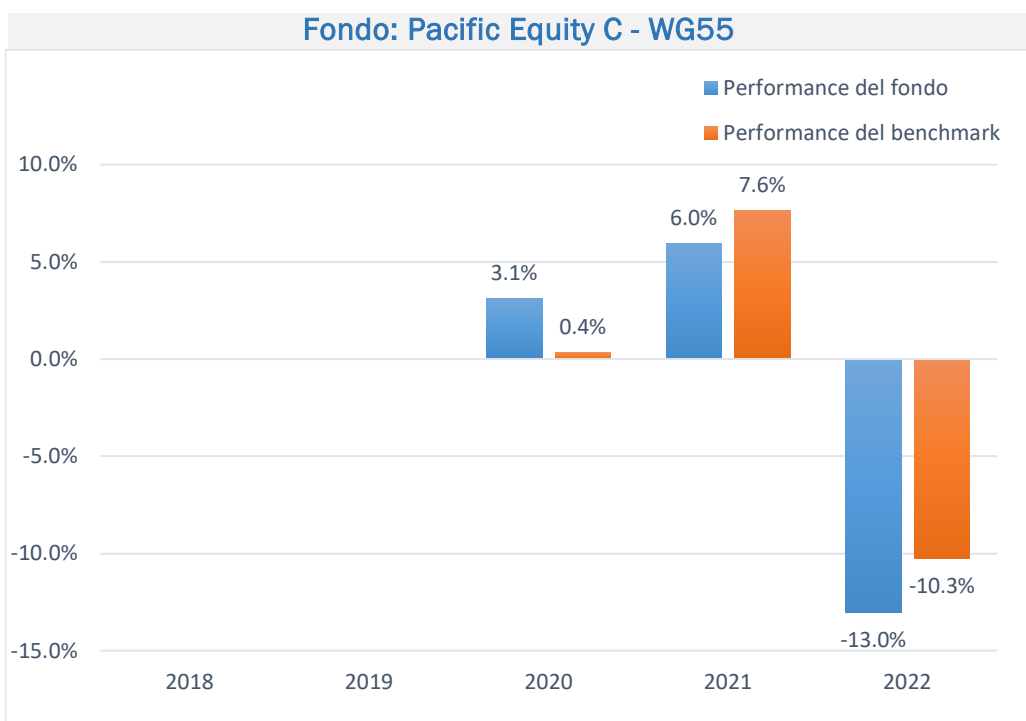

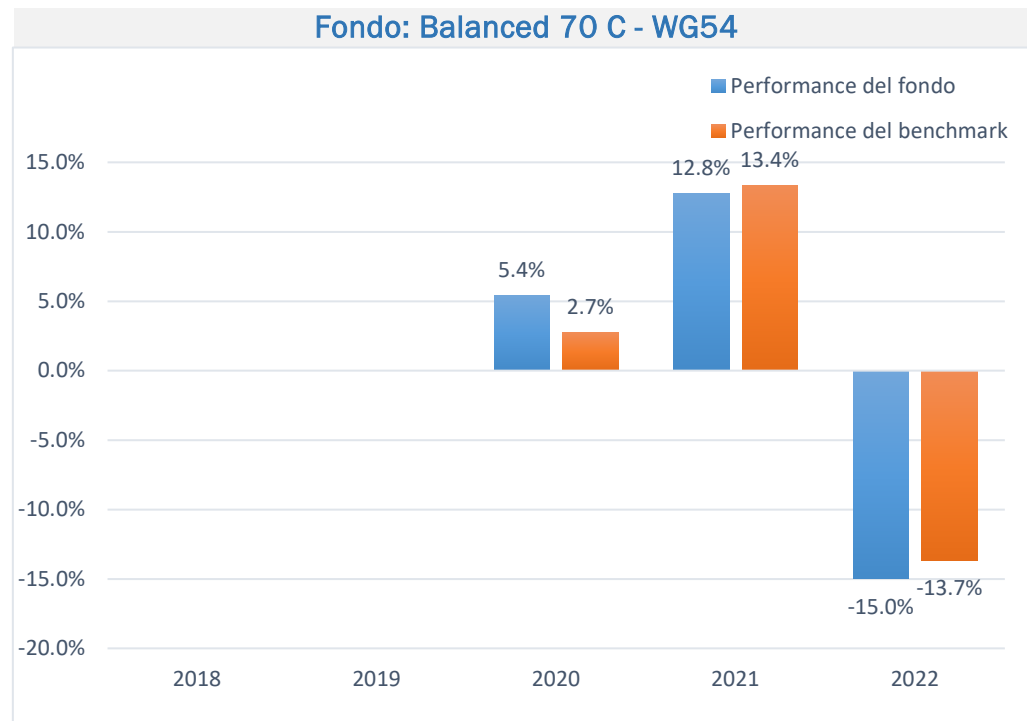

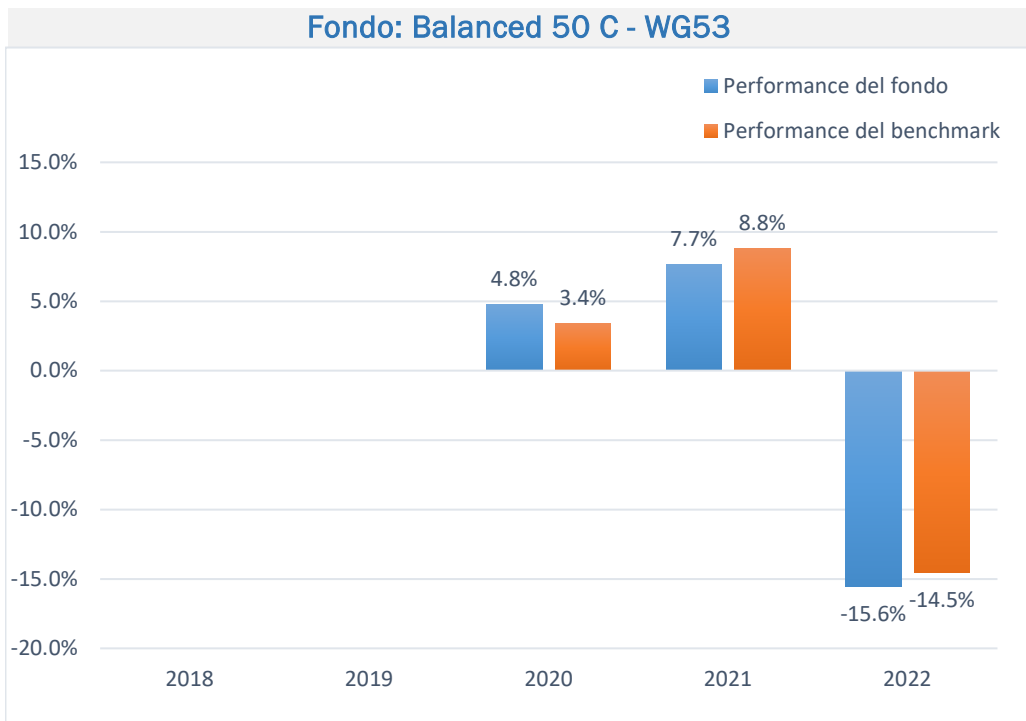

La performance passata non è un indicatore affidabile della performance futura. Nel futuro i mercati potrebbero avere un andamento molto diverso. I risultati ottenuti nel passato possono aiutare a valutare il modo in cui il fondo è stato precedentemente gestito. Sulla rappresentazione delle performance dei fondi interni gravano i costi indicati nelle Condizioni di Assicurazione Art. 22. Invece, le performance dei fondi esterni sono rappresentate senza prendere in considerazione tali costi. Il presente grafico mostra la performance del fondo in termini di percentuale annua di perdite o di guadagni negli ultimi 10 anni rispetto al suo parametro di riferimento. I risultati passati possono aiutare a valutare il modo in cui il fondo è stato precedentemente gestito e a confrontarlo con il parametro di riferimento.

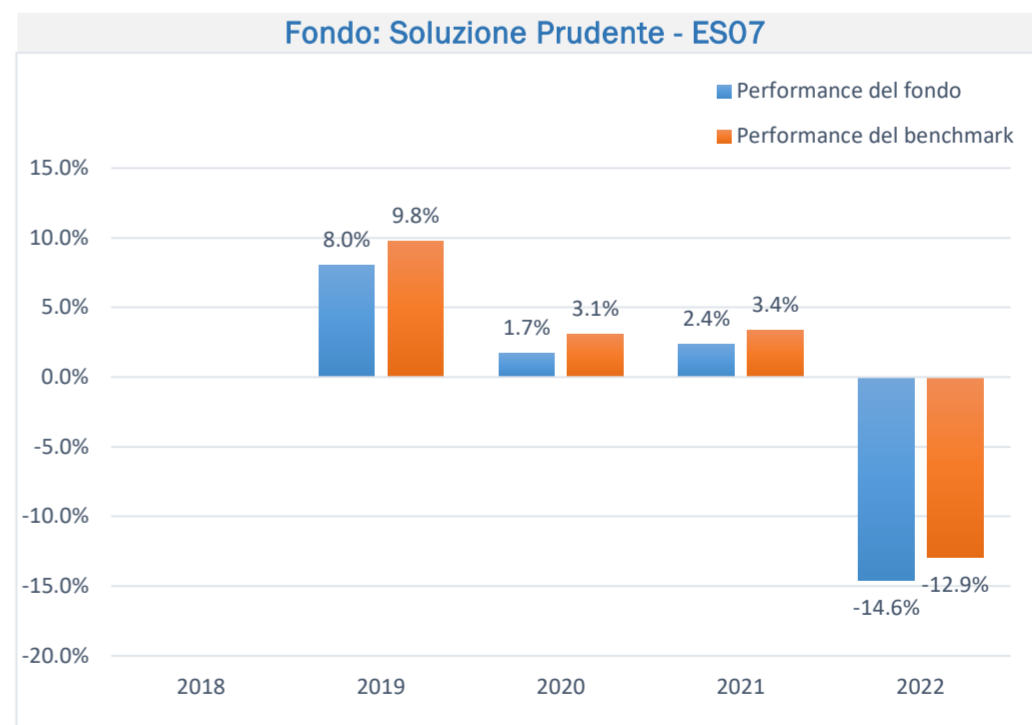

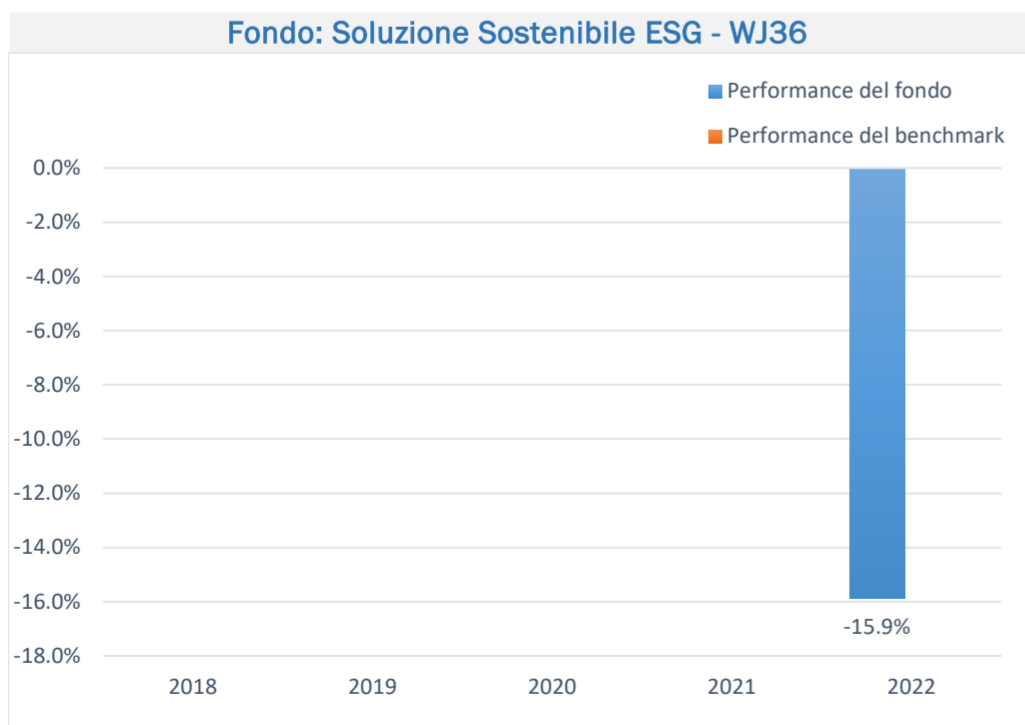

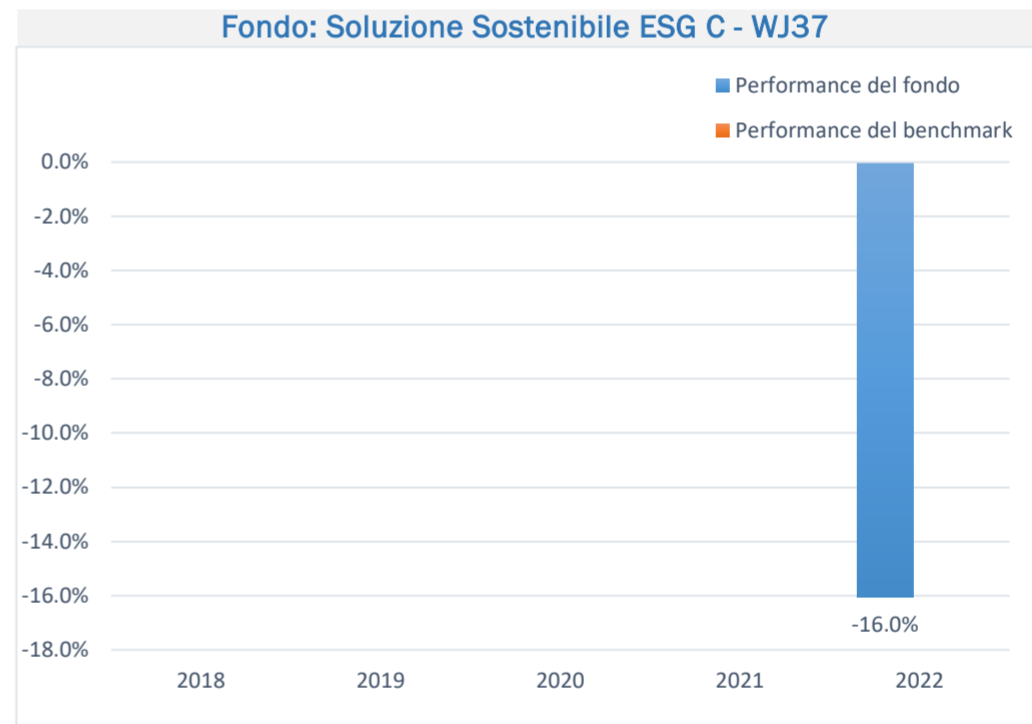

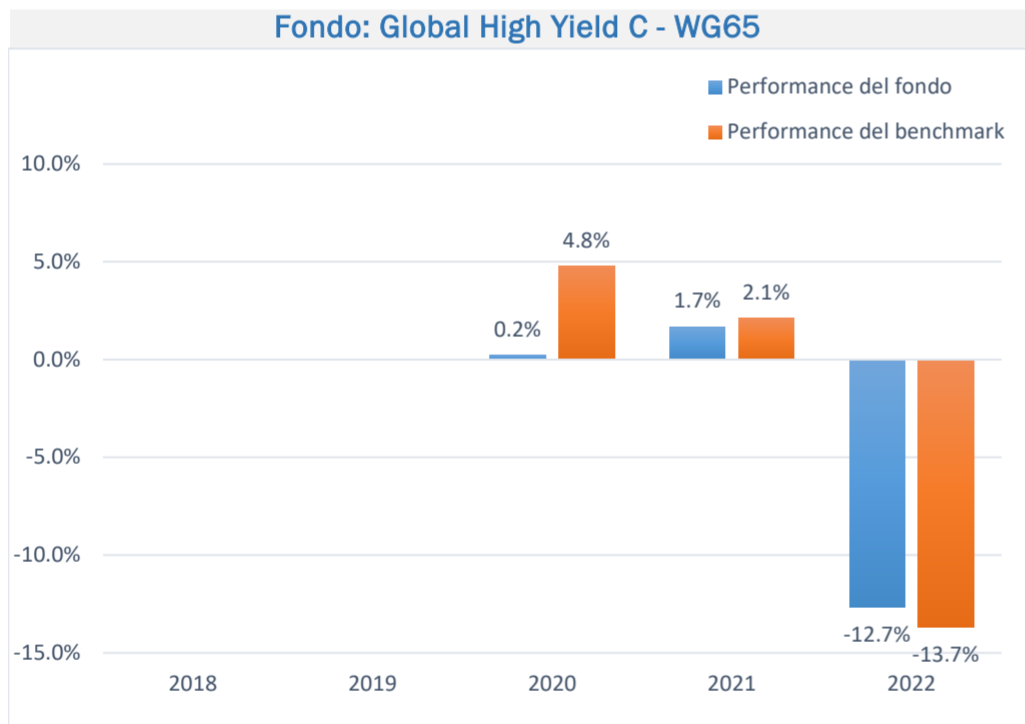

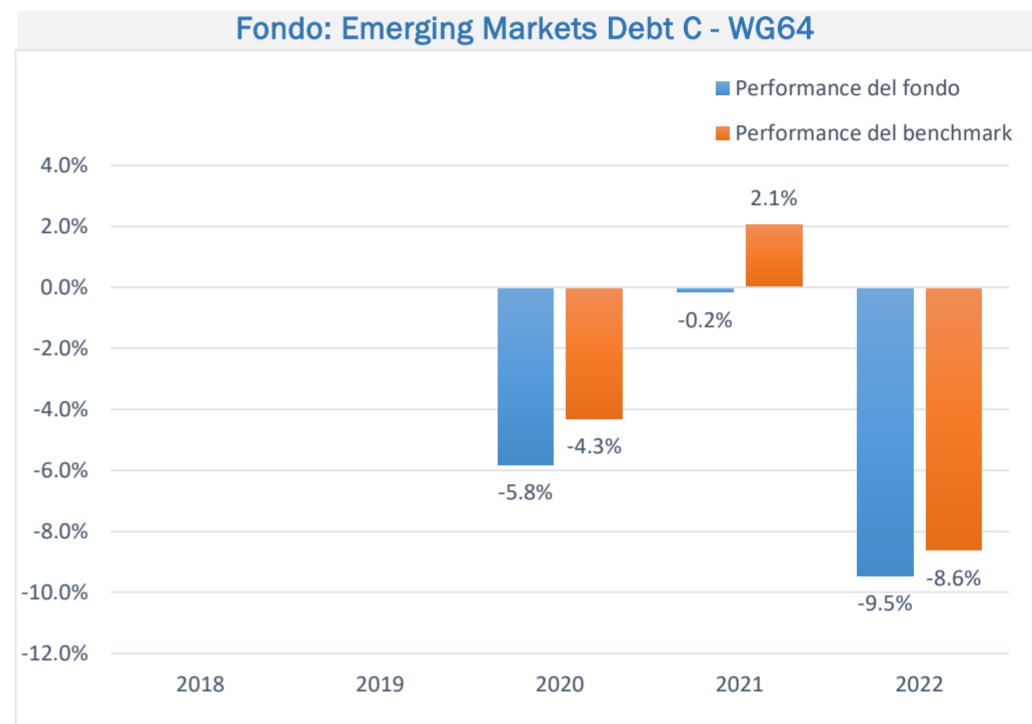

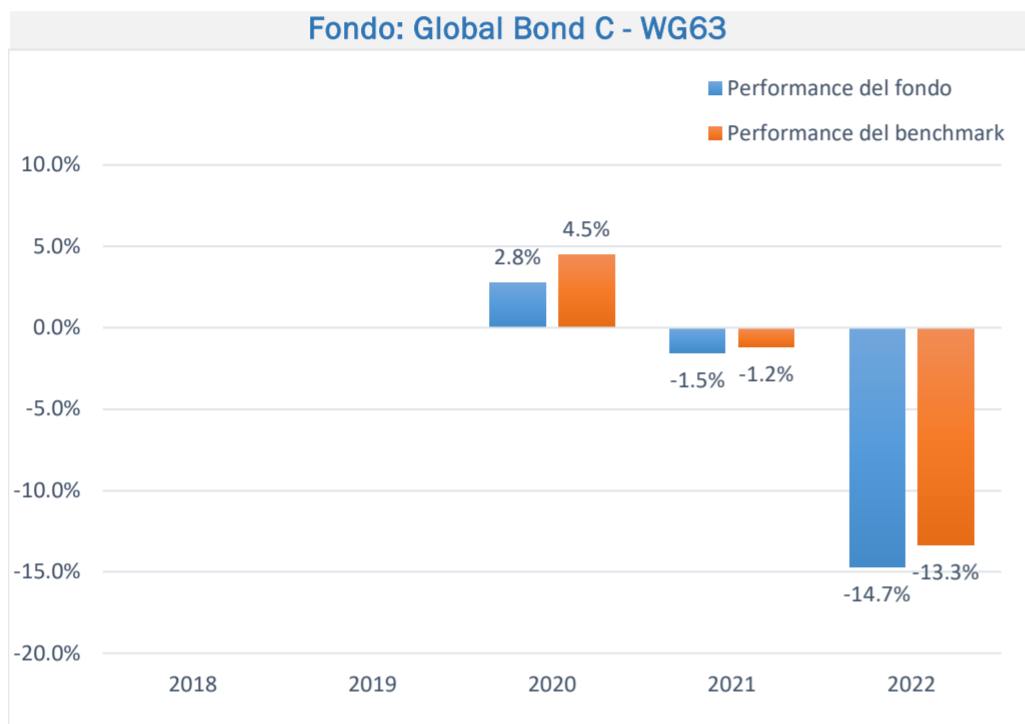

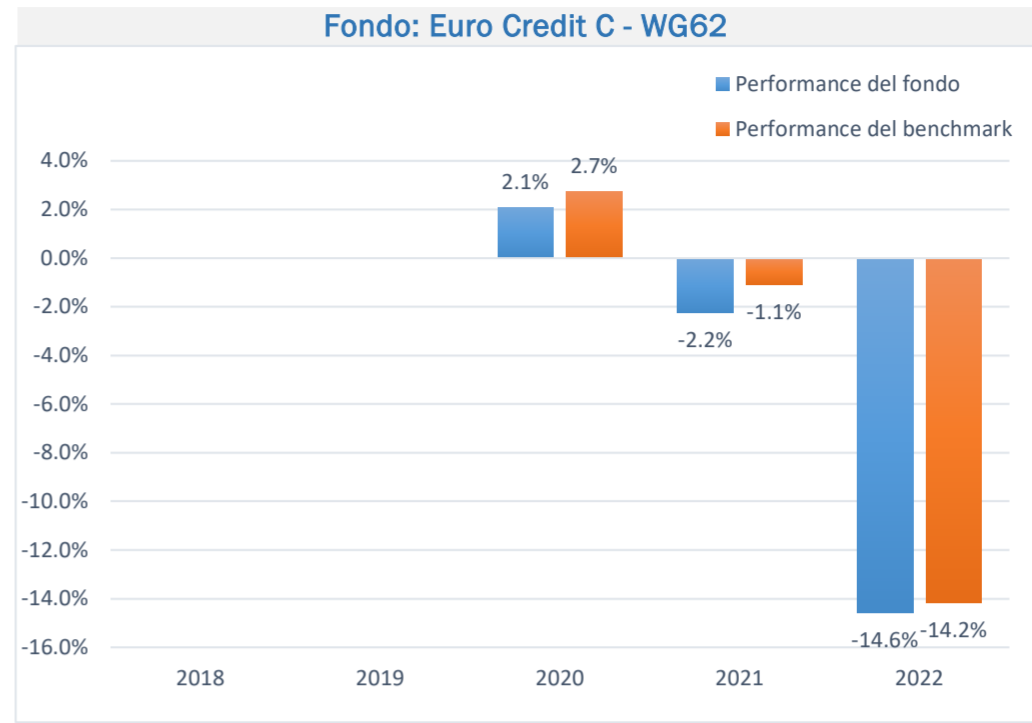

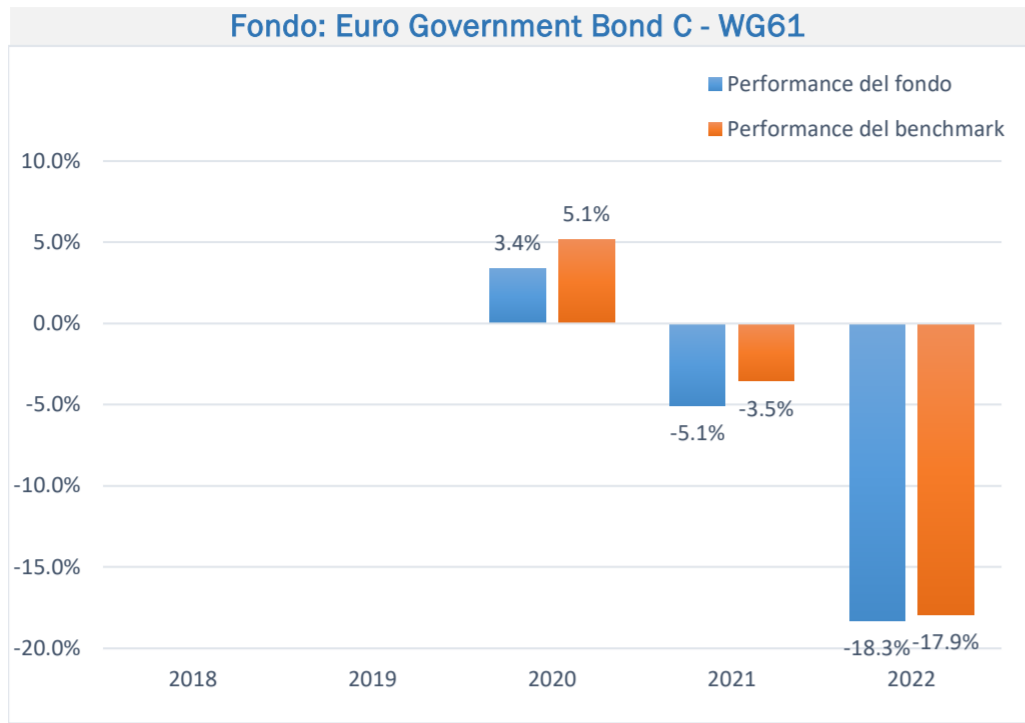

Nota: I dati non sono sufficienti a fornire un'indicazione utile delle performance passate per i seguenti fondi: AXA Rosenberg US Equity Alpha (ISIN IE0006SS2B07); Schroder ISF Global Energy Trans (LU2419419655); UBS Lux Bond Euro High Yield (LU2094083099).
